

EU General Data Protection Regulation (GDPR) – Reference Card

The EU GDPR will be enforced from 25 May 2018, and it is the culmination of years of work by the EU to reform Data Protection regulation into a Union-wide framework instead of a patchwork of country-specific legislations. The GDPR affects all organizations that hold personal data on EU citizens, regardless of where the organization is based in the world. The maximum fines for non-compliance are the higher of €20m and 4% of the organization's worldwide turnover.
